DETAILED ACTION

Status of claims

1. This is in response applicant's amendment filed February 22, 2005, in which claims 1-71 have been deleted and claims 72-79 are added and are pending.

After further search and thorough examination of the present application, Claims 172-79 are found to be in condition for allowance.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: the prior art Willenegger (US publication 2002/0009061) discloses processing of data and data format selection and power control (paragraph 0039- paragraph 0058 and figure 5).

On the other hand, the present application specifically teaches determining a need to switch transmission transport format from said first format to a second transport format; transmitting a second frame of data in accordance with said second transport format and at a second power level corresponding to said second transport format prior to receiving a power control feedback from a receiving destination regarding transmission power level of said second frame of data; wherein said transmitting said second frame of data occurs in a time frame immediately after a time frame used for said transmitting said first frame of data. These limitations, in conjunction with all other limitation of the present application, have not been disclosed, taught or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2684

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tilahun B Gesesse whose telephone number is 571-272-7879. The examiner can normally be reached on flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nay Maung can be reached on 571-272-7882. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
